CAUTION: SPURIOUS AND WORTHLESS paper is being sold in this city.

The title is in Darkest Africa, and the author is unknown.

It is a copy of the book by the undersigned, or by his authority, W. H. MOORE, Steel House Hotel.

A general discussion on the subject of compulsory law was participated in by the Lodge of Elks finished their business to-day. A committee was appointed to secure an injunction against New York, and the constitution was revised. The new constitution provides that each Lodge shall not elect more than one representative, and such delegate must be a Past Exalted Ruler.

The government of the Order has been placed upon a more democratic basis. The Grand Lodge will hold meetings in the various places it sees fit, and not in New York, as was done in the past. The Order is abolished, and all members are to be known as Elks. The temperature question was freely discussed, and a motion passed prohibiting the use of liquors at social meetings.

The next meeting will be on the third Tuesday in May at Louisville, Ky. The following officers were elected to-day: W. C. Dudley of San Francisco, Grand Esquire; Thayer of Wisconsin, Vice-Grand Esquire; Professor Alexander Whistler, General Secretary; and Mr. Norman Department on the difference between normal and high school methods.

The Art Department elected Mrs. Hanson, D. O. Oberly, Carter of New York, President; and the other officers.

McCreary of Kentucky, now a member of the Order, was elected to the office of Secretary.

Professor Alexander Whistler, General Secretary of the Schools of Texas, read the next paper of the same general subject. Cooper held that compulsory education laws contravene the development of American institutions.

It is a maximum of law thoroughly enforced with a minimum of freedom, rather than compulsory laws. He favored better schools.

TWENTY-FIVE CENTS per month.

THE WEEKLY UNION

Is the cheapest and most desirable Home News

and Literary Journal published on the Pacific coast.

The SUNDAY UNION is sent to every sub-

scriptor.

Terms for both one year, \$2.00

The WEEKLY UNION also per year, 1.00

The SUNDAY UNION also per year, 1.00

All these publications are sent either by Mail

or express to agents or single subscribers, with

checks or money orders are accepted.

The Best Advertising Mediums on the Pacific coast.

Entered at the Postoffice at Sacramento as

second-class matter.

The RECORD-UNION, SUNDAY UNION and

WEEKLY UNION are the only papers on the

Coast, outside of San Francisco, that receive

the full Associated Press dispatches from all

parts of the world. Outside of San Francisco,

they have no competitors either in influence or

home and general circulation throughout the

State.

The readers of the RECORD-UNION leaving the

city for the heated term can have the paper sent

to their address for 65 cents per month, postage

prepaid.

San Francisco Agencies.

This paper is for sale at the following places:

D. F. Fisher's, room 21, Merchants' Exchange,

Old California Building, 10th and K Streets, and

Hotels, and at the Market-street Ferry.

Also for sale on all Trans-leaving and

arriving into Sacramento.

MR. STANLEY'S SUGGESTION.

Henry M. Stanley advised against the

plan of Cardinal Lavigne, to crush the

slave trade of Africa through the agency

of a crusade. On the contrary, he says

that such a scheme would fail, that no

large body of Europeans could march

through Africa and pursue the slaves

with any sort of success. Mr. Stanley's

plan is for the nations to unite in preventing

the importation of gunpowder into

Africa except for the use of their own

employees, or soldiers. The slaves will

thus be unarmed and compelled to rely

upon bows, arrows, spears, and clubs,

in the use of which the natives are more

skilled than the Arabs and the black

slaves. The former would thus be enabled

to defend themselves, and would not

only do so successfully, but follow up and

drive out or exterminate the last of the

man-slavers.

There is sense in this proposition; because

the banditti raid native villages more because

they are armed in a superior manner; de-

prive them of powder, and they at once

become the weaker body and will have to

retreat before the spears and arrows of the

natives. It is the gunpowder that civil-

ization furnishes the slaves that is re-

sponsible for the horrors of the slave-trade

against which the same civilization pro-

tests.

The horrors of this slave-trade are not

thoroughly understood by civilized people.

From Ugarwawa and Ipoto bands of raid-

ers go out twice a year and burn native

villages, twice the old, dash out the

brains of infants, and bind in chains in

long rows the youths and middle-aged.

As they are marched across the deserts

and through the forests from 50 to 70 per

cent. fall from want of food, fatigue and

thirst, or are cut down by their cruel

captors.

Vast tracts have been devastated by

these raiders and scarcely a hut left stand-

ing. Stanley estimates that the Many

ums headmen from Ipoto have destroyed

the villages in from 40,000 to 50,000

square miles. Three-fourths of the great

forests of the Congo have by the Arabs

and the heartless blacks who engage in

the purposes of plunder. Slaves and

ivory are their prizes, and they stop at

nothing to secure them. Such men as

Tippoo-Tib employ hundreds of ruffians

and with armed caravans scour the coun-

try. To expect to conquer and drive out

these men with a band of 700 picked

white men, strange to the country and not

acclimated, Stanley pronounces the high-

est of absurdity. He points out that 14,000

picked English soldiers under the com-

mand of one of the most skilled Generals

failed to rescue the Soudan garrisons but

Gordon, with a white wand and six fol-

lowers penetrated to the heart of the

country and reached the garrisons that

the armies could not relieve.

It remains now to be seen if the greed

of Europeans and their love for the silver

and gold of the slaves, will permit the

adoption of Stanley's plan—the exclusion

of gunpowder from Africa. For, from the

explorers' explicit statement, it is made

certain that the slave trade is now main-

tained upon the commerce in gunpowder,

carried on by the very people who are

most loudly exclaiming against the slaves.

A PLUCKY LOVER.

A gentleman who came across the water

to meet his affianced, a few hours after

arrival walked in a Montreal park with

her at dusk and there in the shadow of

the trees he kissed her. Just these two

men, wearing no insignia of office, came up

and attempted to seize the swain. He

therupon proceeded to knock down one

assassin. The other one had meanwhile

attempted to seize the lady, who fled. The

lover had then two to deal with, and he

thrashed them both soundly, but was

finally overcome and thrown into prison.

The lady was also found and placed in a

cell. When the lover, who with his affi-

anced, proved to be decent people and

standing well in their communities, was

brought to trial next day, he admitted the

kissing, but pleaded an excuse, whereupon

the Judge, Recorder of Montgony, inter-

rupted him, saying in broken English with

his French accent, that English people

must live up to their own standard of

morality, of which they bragged so loudly.

They were fond of reproaching the French

with laxity of morals, while they pre-

ferred to be very rigid. A park at night

was no place for kissing, he said, and then

final Gordon \$15 and the lady \$10, though

she was too ill to appear. Then to Gor-

don he said in broken English: "If you

intend marry daug girl I advise you wash

her closely, and if you marry her

watch her closer; her morals be bad."

This was too much for the Englishman,

and he sprang forward to floor the Judge,

but Colonel Hughes, Chief of Police, in-

terfered and got the enraged Mr. Gordon

out of Court. It is said that a suit for

heavy damages is threatened against the

city, and we trust that the plaintiff will

recover smart money. The remark of the

Court was such as to justify the indigna-

tion of young Gordon, and perhaps his

assault. It has come to a pretty pass indeed, when magistrates can blanch the

character of one's bride by unsolicited ad-

vice from the bench. The officers who ar-

rested Gordon might have taken him with-

out invoking force had they disclosed their

official character, and the refusal of bail to

INCREASING THEIR LEAD.

THE SACRAMENTO BALL-PLAYERS EVIDENTLY MEAN BUSINESS.

They Gain a Good Lead by Winning From Stockton, While Oakland Pulls San Francisco Down.

For a time yesterday it looked as though the Stocktons were going to treat the Sacramentoans to a second shut-out, and for five straight innings the Senators were not allowed to score a run. In the same number of innings the visitors were permitted to tally but twice, and although masters looked more favorable for Stockton, the Sacramentoans did not appear to consider two runs much of an obstacle to overcome.

In the sixth inning, after two men were out, Godar hit the ball hard, driving it out to the back fence, and springing around the bases with just enough speed to score a home-run. The crowd in attendance were by no means as confident that the Sacramentoans would win as were the players themselves, and Godar's timely four-bagger caused many to rise in their seats in the grand-stand and give vent to their feelings by yelling vociferously.

The game was the one in which the home club took the lead. McFalls's home-run (it hit precisely similar to Godar's), coupled with other safe drives and errors by the visitors, made the total number of runs equal during four. Two of them were earned. One more run was added when the Sacramentoans turn came again, making the total six.

The Stocktons could not get any of their runners across the plate after the second inning.

Harper neverield his position better since he has played with the Sacramentoans. Beside pitching an extraordinary game (allowing but one hit), he made several difficult stops in the vicinity of the pitcher's box, and received the applause of the spectators.

Perron was hit safely ten times, but nevertheless proved his ability as a pitcher by making seven of his nine batters out.

He was unable to pitch at all times when attempting to hit his curves. Without doubt, he has more and better curves than any pitcher in the league. He can throw a ball directly at a man's eye, and yet have him miss it when it nears the home-plate; it takes an outward shot and clears the end of the bat by nearly a foot. Duane gave him fair support, but his fielders did some very poor playing at critical times. Holiday allowed a single, but otherwise did a good job to roll between his legs, and errors by Duane, Seina and Funder were not to be excused.

There was very little work for the Sacramentoans to do with the exception of Ries, and eight of the Stocktons were unfortunate enough to knock the ball his way or to try to steal second base.

Stapleton held up to everything at first base, and did some good stick-work. Bowmen and Stevenson were also quite effective at the bat.

Two double plays by the Sacramentoans were worthy of special mention. The first was by Daley, Bowmen and Stapleton participated in it. The Stockton runner out at the plate, and the second one was a neat play by Godar and Stapleton.

The Sacramentoans appeared in their new uniforms, and the ladies all voted them beautiful. They will continue to wear them, but will have to come in frequent contact with the wash-board if the players wish to keep them in good condition.

Unreinhardt's debut was not a success, so far as the spectators yesterday had in all but one case was undeniably correct. The crowd should not have criticized his decision at the home-plate, when he declared Armstrong safe. It was perfectly right. He called for a strike, and Godar should not have been a strike, but the decision amounted to nothing. Following is the score:

AT THE BAY.

The Oaklands, by Heavy Battling, Score an Easy Victory.

SAN FRANCISCO, July 10.—The Colonels had a walk-over with the home team today. Up to the sixth inning the San Franciscos did not get a safe hit off Cobb, while Lookabaugh was hit hard, and errors materially assisted the Oaklands in their run-getting. The San Franciscos did all their hitting in the last two innings. In the seventh inning Lookabaugh was rapped for five hits, including three doubles, which, with two errors and two sacrifices, gave the Colonels six runs. The feature of the game was McDonald's second-base playing. Score: 6—0.

A handsome present.

At 10 o'clock yesterday A. M. W. H. Shuster will call on the residents at the Court House, two 40x100-foot lots, on the south-east corner of P and Twenty-sixth streets, with dwellings and improvements. Also, after the above sale, a small house of six rooms, with a front of 12x18 feet, in the west half of lot 13, in the block bounded by Twenty-fourth and Twenty-fifth, S and T streets.

J. S. Simmons will also sell to-morrow, at 10 o'clock A. M., at the Court-house, the south half of the north quarter of lot 8, in the block bounded by M and N, Fifth and Sixth streets, for the estate of Catharine Mahaney.

Auction Sales.

At 10 o'clock yesterday Bell & Co. will sell at auction, on the premises, the fine building lot, No. 8, in the block between O and P, Eighteenth and Nineteenth streets, (corner of Eighteenth and P).

At 10 o'clock yesterday A. M. W. H. Police Court Cases.

At the meeting of Naomi Chapter, No. 36, Order of the Eastern Star, held on Wednesday evening, Mrs. Mattie Rose presented the Chapter with an elegant hand-painted star scarf of white satin, trimmed with bullion. The flower painting on the scarf was by the brush of Miss Josie Davis and was highly artistic. The present was a very beautiful and unusual one, and was highly appreciated by the Chapter.

A Blast from the North.

The Signal Service temperature at 5 A. M. and 5 P. M. yesterday was 58° and 88°, while the highest and lowest were 90° and 56°, with the northwesterly winds from the sky.

The highest and lowest one year ago yesterday were 80° and 54°, and one year ago to-day 80° and 52°, and clear skies.

Juvenile Firebugs.

A neighbor of Samuel Katzenstein, who resides on P street, between Twelfth and Thirteenth, yesterday discovered some boys about to set fire to Mr. Katzenstein's barn in the alley, and thereby prevented what might have been a serious fire. The young firebugs escaped.

The Late Patrick Leavy.

Yesterday afternoon the funeral of the late Patrick Leavy took place from the Cathedral and was largely attended. The pall-bearers were Captain of Police Lee and officers, Franks, Frazer, Lowell and Stafford.

Prize in Potatoes.

A Volvo potato has made a profit this year of \$2,000 from twenty-five acres of potatoes. He doesn't care whether they grow up or down.

Again in the Field.

Lovers of first-class laundry work will be pleased to know that Fred Mason has again assumed control of Mason's Steam Laundry, and is prepared to do better work than ever. His shirt factory, No. 628 J street, is again in full blast, and orders are respectfully solicited.

Baseball Notes.

Manager of the San Francisco's game yesterday, Prendergast and Buchan immediately after yesterday's game at the Bay. He intends to have Tom Powers and Whitehead in his nine.

The Sacramentoans play in Stockton today with the nine of that place.

A handsome endorsed card will be presented to every lady calling at our saleroom this week. The Singer Manufacturing Company, 703 J street.

City license, water rates and dog tax now due. Pay on or before the 15th inst. and save costs.

STATE BOARD OF EXAMINERS.

SECRETARY BORUCK COMES TO THE DEFENSE OF ITS MEMBERS AND CLOK.

EDS. RECORD UNION: In your issue of this morning you take occasion to criticize the apparent delay in the transaction of business on the part of the Board of Examiners, and particularly on the part of S. P. Maslin, its Secretary. You do the latter a great injustice. He is faithful and pains-taking in the discharge of his official duties for which he receives \$1,800 per annum, and saves the State not less than \$15,000 each year in putting down overcharge in the examination fees for payment of the Board's expenses. The real estate value at \$6,000 and the reduction is asked for on the latter.

John Grubler asked to have the assessment of \$5,000 on the north half of lot 1, Land of Ninth and Tenth Streets, reduced to \$5,000.

Mrs. C. Phelan asked to have the assessment on 142 acres one mile east of the city reduced from \$200 to \$150 per acre.

Mr. G. asked for a reduction of the assessment of the Eldred House property on K street, between Tenth and Eleventh, to \$10,000, the same as last year.

The real estate value at \$3,000 and the reduction is asked for on the latter.

The general owners 160 acres of land that he considers is worth even \$90 an acre should be able to make more than \$419 per acre.

Mr. G. asked for a reduction of the assessment of the Eldred House property on K street, between Tenth and Eleventh, to \$10,000 per acre.

Mr. G. asked for a reduction of the assessment of the Eldred House property on K street, between Tenth and Eleventh, to \$10,000 per acre.

Mr. G. asked for a reduction of the assessment of the Eldred House property on K street, between Tenth and Eleventh, to \$10,000 per acre.

Mr. G. asked for a reduction of the assessment of the Eldred House property on K street, between Tenth and Eleventh, to \$10,000 per acre.

Mr. G. asked for a reduction of the assessment of the Eldred House property on K street, between Tenth and Eleventh, to \$10,000 per acre.

Mr. G. asked for a reduction of the assessment of the Eldred House property on K street, between Tenth and Eleventh, to \$10,000 per acre.

Mr. G. asked for a reduction of the assessment of the Eldred House property on K street, between Tenth and Eleventh, to \$10,000 per acre.

Mr. G. asked for a reduction of the assessment of the Eldred House property on K street, between Tenth and Eleventh, to \$10,000 per acre.

CALIFORNIA AND COAST.

Probability of a Rate War Between Steamship Companies.

FATAL ACCIDENT AT ST. HELENA.

Interview With Colonel Crocker—New Mining Exchange Opened—Etc.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

ANOTHER RAILROAD.

Colonel Crocker Interviewed Concerning New Branch Lines.

SAN FRANCISCO, July 10th.—Colonel Crocker was interviewed to-day about the railroad surveys from Santa Cruz along the coast to the city and south, that two such lines are being surveyed, one north and east from Santa Cruz, and the other from Felton oceanward. The object of the lines is to connect with the railroads which are built, or will be built, in any event be built, in the San Joaquin tributaries rockbeds and lime rocks, about eight or nine miles out of Santa Cruz, and the surveys are being run in order that the more advisable line may be chosen. It is thought that the new line will be built, and the price is not too high, a narrow gauge line will be built to the objective points from Felton. If it will pay better to build a broad-gauge line from Santa Cruz the company will do so.

PROSPECTS OF A RATE WAR

Between the Pacific Mail and Canadian Pacific Steamships.

SAN FRANCISCO, July 10th.—Prominent Southern Pacific officials state that there is a prospect of a rate war between the Canadian Pacific and the Pacific Mail steamship lines. The Canadian Pacific's steamer *Athlone* arrived here yesterday from Hong Kong June 16th, with news that San Francisco, after calling at Vancouver. If the Canadian Pacific persists in this course, it is thought that the Pacific Mail steamship owners will call at Vancouver. This will result in a rate war, the Pacific Mail is determined to make the Canadian Pacific wait its agreement not to touch at San Francisco.

CALIFORNIA CATTLE.

It has Supplied the Portland Market of Late.

PORLAND (Or.), July 10th.—The wholesale cattle dealers confidently expected good beef cattle from the ranges of western Oregon by the 1st of July, but their hope have not been realized. Several small herds have arrived, but they are not what they look well, they do not make prime beef. It will be a week or two before any good grass of what will be had in market here.

The market of California cattle is about exhausted, and it is to be hoped that California will be drawn upon for further supplies. The beef used here for the past three months all came from California, and has been the best ever had here.

BEHRING SEA.

Armed Sailing Vessels Fitted Out at Victoria.

SAN FRANCISCO, July 10th.—A private letter received in this city from Victoria to-day states that the general opinion prevails that the sealing craft have been fitted out, armed and ready to sail to Behring Sea to aid the British sealing vessels to resist capture by American sealing.

The Corwin is at Victoria, awaiting sailing orders, and information has been received here that the cutter Oliver Wolcott, which has been undergoing repairs at Seattle, has been ordered to make ready at once and proceed to Behring Sea.

SCHOOL LANDS.

Suit Against a Claimant Before the Land Office.

SEATTLE (Wash.), July 10th.—The case of the State of Washington against John G. McBride was begun before the local United States Land Office to-day. The question involved is the title to 640 acres of land in the state of Washington, which was set apart as a school section, several years ago, but in 1880 gold was discovered on the land and a large number of claims were staked out, and rewards abandoned.

Among the claimants was John A. McBride, who, after abandonment of his mining claims, took up the land in accordance with the United States mining laws, and applied for a patent about ninety days ago. The suit was brought on behalf of the State schools. The land is said to be worth in the neighborhood of \$4,000,000 exclusive of mineral deposits.

TAKEN UNDER ADVISEMENT.

Two Sailors on Trial for Deserting a Ship.

SAN FRANCISCO, July 10th.—Two colored men, Julius Caesar and Conrad, are on trial for charge of desertion and of stealing a lifeboat from the schooner *Challenger*, when two days out from Apia, in the Samoan Islands, were examined before United States Commissioner Sawyer to-day, and their cases taken under advisement.

Captain Thompson and second officer Garrett testified to the loss of the boat, and the defendants claimed that they were a week pasting the ship's side, when a heavy wind came on, a high sea set in, and they were lost, being five days at sea without food or water before they got back to Samoa.

Vancouver Notes.

VANCOUVER (B.C.), July 10th.—The Spokane Falls Mining Exchange was opened to-day in the presence of a large crowd. The principal speech was by Thomas C. Griffiths, who said: "We were told to be free-silverists that the Representatives of the new State of Idaho was for silver-free, and that the Washington delegation would find it proper to support them fully. That is not the case. We are told that we are already ten or fifteen stocks short. Formal sales will begin to-morrow. Much interest is taken in the movement, and its success seems assured."

Heavy Rain in Arizona.

PHEONIX (A. T.), July 10th.—The Indians made a raid on the town of Glendale, and was general throughout the middle and eastern Arizona. In San Pedro and Sulphur Springs valleys, the great cattle region, the last was especially vicious, the Indians took the stock, and were out at San Simon, near the New Mexican line, and the Southern Pacific west bound train was delayed eleven hours.

Burglary Sentenced.

FAIRFIELD, July 10th.—Lee Suey, Thos. Hastings, and Charles Upton, who came into the city, were captured. They were indicted in the Superior Court to-day to two charges of burglary in the second degree. Suey and Hastings were sentenced to eighteen months imprisonment at San Quentin, and Upton was sentenced to eighteen months' imprisonment at Folsom.

Rebuilding the Track.

PORTLAND, July 10th.—The first train-load of material for the rebuilding of the Southern Pacific track through Cow Creek canyon, which was washed away by the flood waters, left for the south to-day. The new track will be superior to the old and will be built so high through the canyon that the water can never carry it away.

Commissioner McDonald.

TACOMA (Wash.), July 10th.—Mark L. McDonald, of Columbia, one of the Commissioners at large for the World's Columbian Fair, has been in Tacoma and Seattle the past two days, enlisting public interest in the representation of this State at that fair. He left this evening for Portland on his way home from Chicago.

Tired of Life.

SAN DIEGO, July 10th.—William Brown, a stone-cutter in the employ of the Excelsior Paving Company, attempted suicide late last evening by cutting a gash across his forehead. He was found, however, and then made an effort to throw himself into the stone crusher, but was prevented by his companions.

All Over to Woman.

LOS ANGELES, July 10th.—News is received that during a quarrel last night at Indio, Jose Carrasco shot M. Soto, the latter in a few hours. The men were seen

tion hands on the railroad, and the quarrel is said to have been about a woman. Carrasco was arrested.

TRAPPING LIONS.

How the Great Beasts are Captured for Zoological Gardens.

No doubt you have all wondered many a time how it is possible to capture a full-grown lion in his native wilds without wounding him, and without his wounding or killing some of his captors. A man dealing in wild animals is to supply the demands of dealers in wild animals, and the other dealers in the New York Sun all admit it. Here is the most interesting part of this story:

I was at Cairo, Egypt, when I received a letter from the great Hamburg dealer in wild animals that sent me off down the Red Sea at a day's notice. I was to drop the hunting curiosities I was after in the direction of the Red Sea, and the crocodiles and fill an order for him.

At the end of the third day, being then forty miles from the coast, we found signs so plenty that we made a permanent camp. It was in a grove on the bank of the stream, and to the west of us was a sandy plain, with here and there a grove of palm trees, and to the east a sandy, broken country, with rocky ledges cropping out intervals.

The first thing to be done next day was to construct two cages. They were made of stout cane, growing along the banks of the river, and after the manner of a crocodile crate. We also had our goods to unpack, and it was two days before we got around to try both of them. I had three large bear traps made on purpose to hold this sort of game, and these we took over and set about the trapping place, each one being held under the soil and fastened to a stake driven into the ground. To the east of the spot where we camped we dug the two four pits about twelve feet deep. These pits were on a line with each other, and about twenty rods apart. They were four feet wide and eight feet long, looking more like graves than anything else. Each one was covered over with light earth. There were eight traps in each cage, and sand hid all traces of our work.

The next night was fair and starlight, and the sun had scarcely gone down when we heard the roar of a lion. About an hour after dark a commotion among our cattle proved that the beasts were skulking about, and I took my rifle and went among the cattle driving them back the male goat of whom had bit the male, and I fired over his head to scare him. The bullet cut very close to his head. Then I went to the west, and the next night was a complete success.

The next night was fair and starlight, and the sun had scarcely gone down when we heard the roar of a lion. About an hour after dark a commotion among our cattle proved that the beasts were skulking about, and I took my rifle and went among the cattle driving them back the male goat of whom had bit the male, and I fired over his head to scare him. The bullet cut very close to his head. Then I went to the west, and the next night was a complete success.

From the northern edge of the corral I could see three lions moving about over the plain—a male, a female and a half-grown cub. They acted as you have seen a cat when approaching a bird on the wing, and the male bit the male goat of whom had bit the male, and I fired over his head to scare him. The bullet cut very close to his head. Then I went to the west, and the next night was a complete success.
